

2021 IEEE International Conference on Biometrics: Theory, Applications, and Systems (BTAS 2021): Call for Proposals

Deadline: October 15, 2019

The IEEE Biometrics Council (IEEE-BC) is pleased to invite proposals for hosting the 2021 International Conference on Biometrics: Theory, Applications, and Systems (BTAS 2021) in the United States.

Proposals are due by October 15, 2019. A committee established by IEEE-BC will evaluate all proposals by December 1, 2019.

BTAS is a premier research conference focused on all aspects of biometrics. It is intended to have a broad scope, including advances in fundamental signal processing, image processing, pattern recognition, and statistical and mathematical techniques relevant to biometrics. Areas of coverage include biometrics based on voice, fingerprint, iris, periocular, face, handwriting, gait and other modalities, as well as multi-modal biometrics and new biometrics based on novel sensing technologies.

Each proposal should include information on (but not limited to):

- Host organization
- Organizing and technical committees
- Venue and dates (verify possible conflict with other major conferences in closely related fields)
- Accommodation arrangements
- Paper review plan
- Publicity plan
- Timetable with critical milestones
- Budget estimates Sponsors

Further guidelines on IEEE conference organization can be found here:

<https://www.ieee.org/conferences/index.html>

Proposals should be sent via e-mail to:

Dr. Vishal Patel
